

AMP-SOL-2: Current Amplifiers

Product

Features

- Current amplifier with closed loop control
- Two solenoids per module
- PWM and Analog current command inputs
- Switching frequency: 2KHz
- PC/104 form factor design
- Rugged mechanical design
- Standard configurations for 2, 4, 6, 8, 10, 12 solenoid outputs.

Specifications

1. Number of Output Channels	2 channels per module. 4 , 6, 8 , 10 ,12 channel configurations standard.
2. Supply Voltage	12V to 26V range
3. Maximum current rating per channel	2.0 Amp
4. Switching Frequency	2.0 kHz
5. Current command signal type	PWM or Analog
6. Mechanical dimensions	PC/104 mechanical dimensions

Part Number for Ordering:

AMP-SOL-x

where x= 2, 4, ..., 12 number of outputs
